

Welcome back to a new term. As ever we have a busy term ahead with lots of hard work and exciting activities. SATs will be our priority for the first four weeks, more details of SATs breakfast to follow! Work won't stop after SATs, as writing will be assessed until late June and other areas of the curriculum will continue at a pace to prepare our children for their next school. During the second half of term we have a number of extra activities planned, including a visit to the Year Six Pilgrim Day at Wells Cathedral, the residential visit to Kilve and move up days. As ever we appreciate your support and look forward to guiding your children through their final term of primary education. Please don't hesitate to speak to any of us if you have any queries.

From all Morpurgo staff

Jigsaw

- Relationships - thinking about significant people, understanding my emotions and recognising how to take responsibility for my own safety and well-being
- Changing Me - being aware of my own self-image, understanding puberty and thinking about transition to secondary school

Science

- Evolution and Inheritance are the themes of this term's learning in Science.

PE

- Swimming
- Striking and fielding games

English

- English Reading and associated skills
- SPAG - spelling, punctuation and grammar
- Non-fiction and fiction texts ready for moderation
- Writing stories for younger children

Maths

- SATs revision
- Algebra
- Post SATs problem solving and project work

At Home

- Continue to support learning of tables.
- Checking homework is done each week.
- Support with reading

History

During the term we will have history focus days where we will explore stone age/iron age eras.
