

Guided Access *Lock the learner on the app you want them to work or play with*

- Go to **Settings**, then go to **General**
- Scroll down and choose **Accessibility**
- In **Accessibility** scroll down and find **Guided Access**
- Switch **Guided Access** to on
- You will now be asked to set up a four digit pass code – follow the screen instructions to do this
- Now test it - click on the **Home** button to leave the **Settings** menu and chose another app, then triple click the home button 
- The accessibility options will appear – click **Guided Access**
- When you have the settings you require press **Start** in the top right hand corner
- To end a Guided Access session triple-click the **Home** button and then enter your pass code.

Inverting colours

- Go to **Settings**, then to **General**
- Scroll down to the bottom and choose **Accessibility**
- In **Accessibility** scroll down and find **Invert Colours**
- Switch the slide button from off to on and the colours will be inverted
- Switch Inverted Colours to off and everything returns to normal.

Zoom the screen

- Go to **Settings**, then go to **General**
- Scroll down to the bottom and tap on **Accessibility**
- Find **Zoom** and switch it on - the screen will automatically enlarge
- Tap on the screen with three fingers to toggle zoom on and off
