Find all the 2D shapes you can in your house and garden (triangle, square, circle, rectangle, pentagon, hexagon and octagon) Take photographs or draw a picture of each one. When you have done this, label the properties of each shape.

- *How many sides?*
- *How many vertices? (corners)*
- *Are the sides curved or straight?*
- *Are the sides all the same length?*

LO: I can exchange a coin for smaller coins.

Friday 1st May 2020

Write this pattern on the square paper and continue it: Remember one number in each square.

$$90 = 100 - 10$$

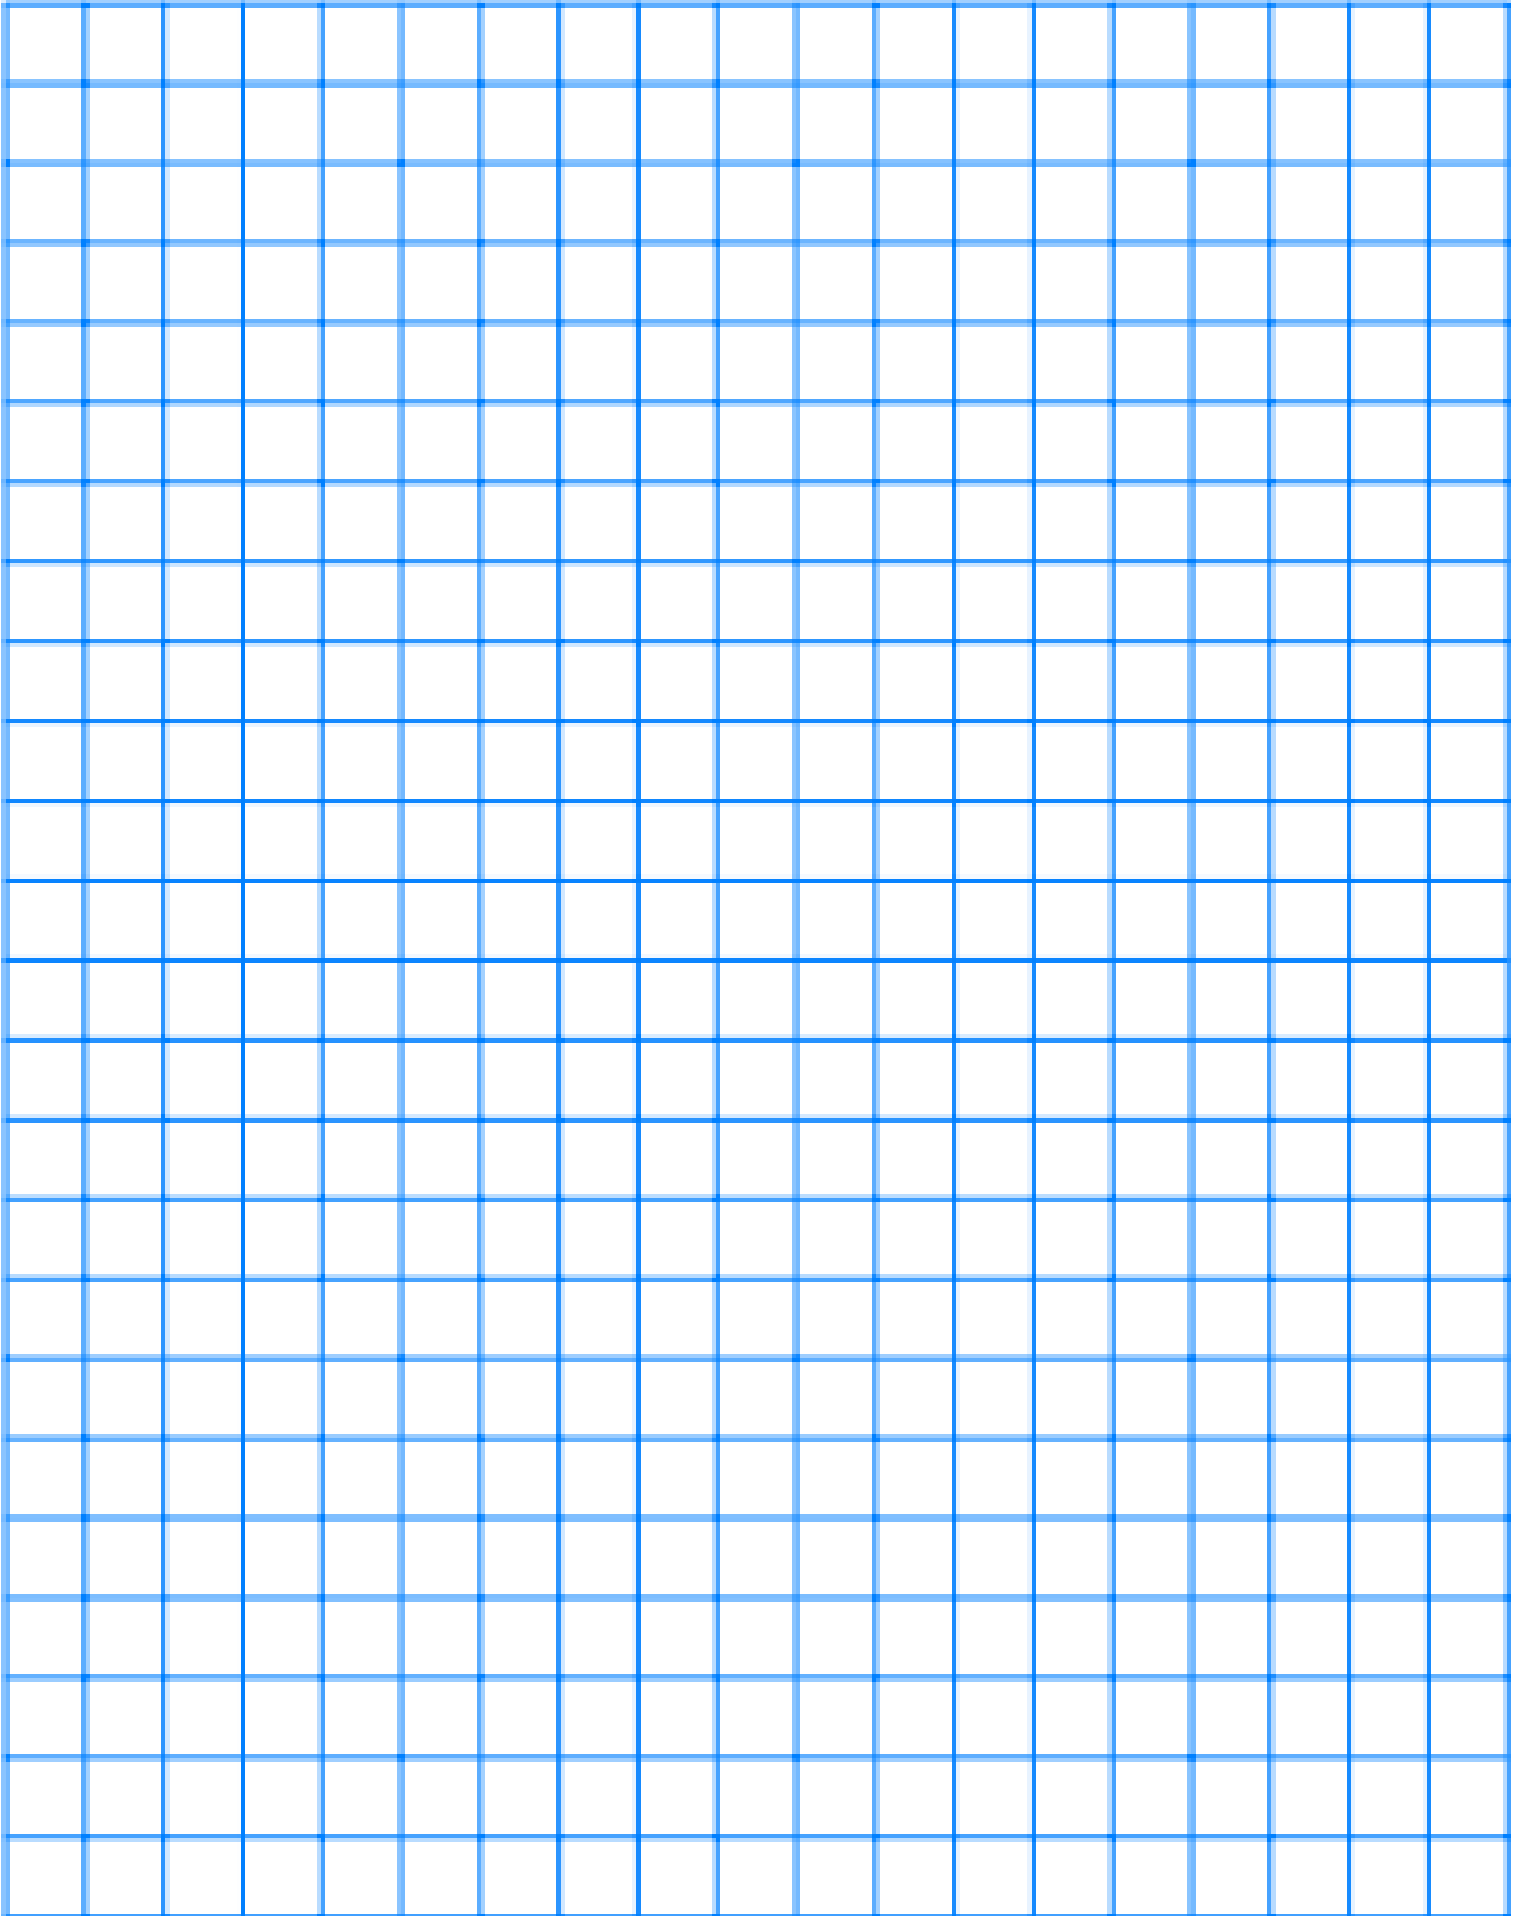

$$80 = 100 - 20$$

$$70 = 100 - 30$$

When you have finished this pattern, can you think of your own pattern to write down?
